2 Years 1 Months

Summary	Software Engineer with 1year of experience in programming principles across .NET , Angular, Android and good at developing OOPs, debugging and testing. Engaged in the Virgin Pulse project from April 2023 to the present, specializing in data migration. Proficiently utilized tools such as MoveIT, Globalscape, AWS and EFT servers and managed data transfers. Demonstrated expertise in ensuring seamless and efficient migration processes.
Education	**Master of computer science - M.SC** Anna University 2023 - Distance Learning **Bachelor of Computer Science - BSC** Justice Basheer Ahmed Sayeed College for Women 2017 - Full Time **12th - HSC** M.A.K Matriculation Higher Secondary School 2014 - Full Time **10th - SSLC** M.A.K Matriculation Higher Secondary School 2012 - Full Time
Skills	Asp .net web api,Angular 2+,MongoDB,Android(OS),Springboot,Python,MS SQL Server,Github,
Project Experience	**ACL Digital : (2 Year(s) 1 Month(s))** **Designation :** Software Engineer **Project Title :** EFT-Data-Migration **Team Size : Skills :** AWS **Role description :** Participating in the data migration process, my responsibilities include the development of workflows and tasks designed for the seamless transfer of data from Globalscape to MoveIT. This entails meticulous planning and execution to ensure a smooth and efficient migration. This involvement requires a keen attention to detail and a comprehensive understanding of both the source and destination platforms. **Project description :** Engaged in the Virgin Pulse project from April 2023 to the present, specializing in data migration. Proficiently utilized tools such as MoveIT, AWS and EFT servers, and managed data transfers. Demonstrated expertise in ensuring seamless and efficient migration processes. **Project Title :** Telenta AB Harmoni **Team Size :** 05 **Skills :** .Net, Angular 2+, MongoDB **Role description :** Primary role is to learn the codebase, write basic code, fix bugs, and assist the Development Manager in all design-related tasks. Fixing and improving existing software, Working on minor bug fixes,

Project description :
Telenta Harmoni is a digital platform specially developed for municipal health care needs. With a digital and cloud-based solution, it offer services and functions that provide a safer everyday life for care recipients, provide support and free up time for care staff, and make it easier and more efficient for management.

Accomplishments	
Certification	**Cert Name :** Python **Cert ID :** 1 **Validity :** JUN 2021 - Does not Expire
Training	**Training Name :** Asp.Net Core **Training ID :** **Validity :** FEB 2022 - APR 2022 **Training Name :** Spring Boot - Java **Training ID :** **Validity :** APR 2022 - MAY 2022 **Training Name :** Angular +2 **Training ID :** **Validity :** MAY 2022 - JUN 2022
Personal details	**Date of Birth :** 16 Nov 1996 **Gender :** Female **Languages :** English,
